

Aishwarya Enterprises

Industrial Automation | IOT | Embedded Solutions

ABOUT US

1994 - Established by our MD Mr. Uma Sankar KS. Initially started developing Electronics products.

2002 - We became suppliers for CNC machine manufacturers.

2010 - Ventured to Industrial Automation and IOT. We supplied Customized IOT and embedded solutions for Industries. We have made our mark in various verticals like RIG borewells, Truck Mounted Cleaning Machines, engine System control and cluster.

2020 - Established a exclusive Manufacturing Unit with advanced technology like Pick and Place Machine, 7 Zone Wave Soldering Machine, 3D printer to provide efficient and fast production.

INFRASTRUCTURE

Aishwarya Enterprises is an ISO 9001:2015 Company. We practice it through out the company from gathering requirements, through product research and development to customer service.

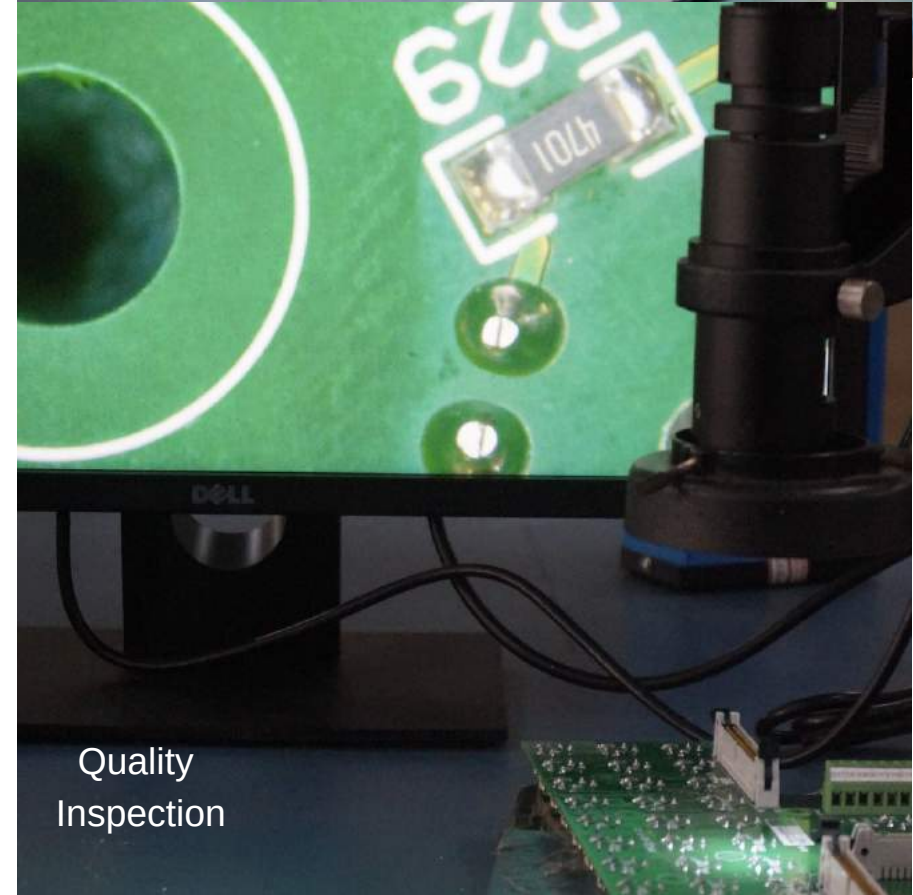

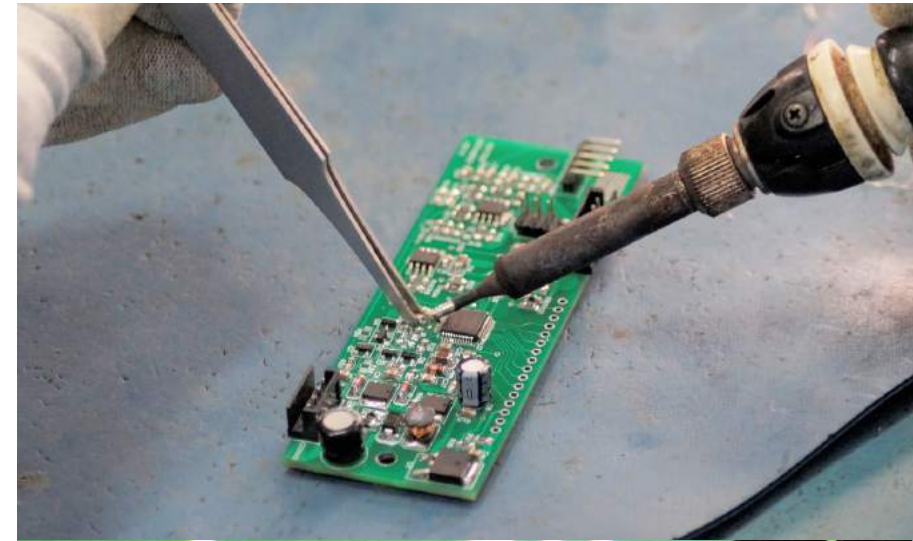

Annual turnover of over Rs.15 Cr with more than 85 employees spread in 2 separate units.

We offer end to end electronic solution from prototyping, designing, R & D, manufacturing, testing, customer service.

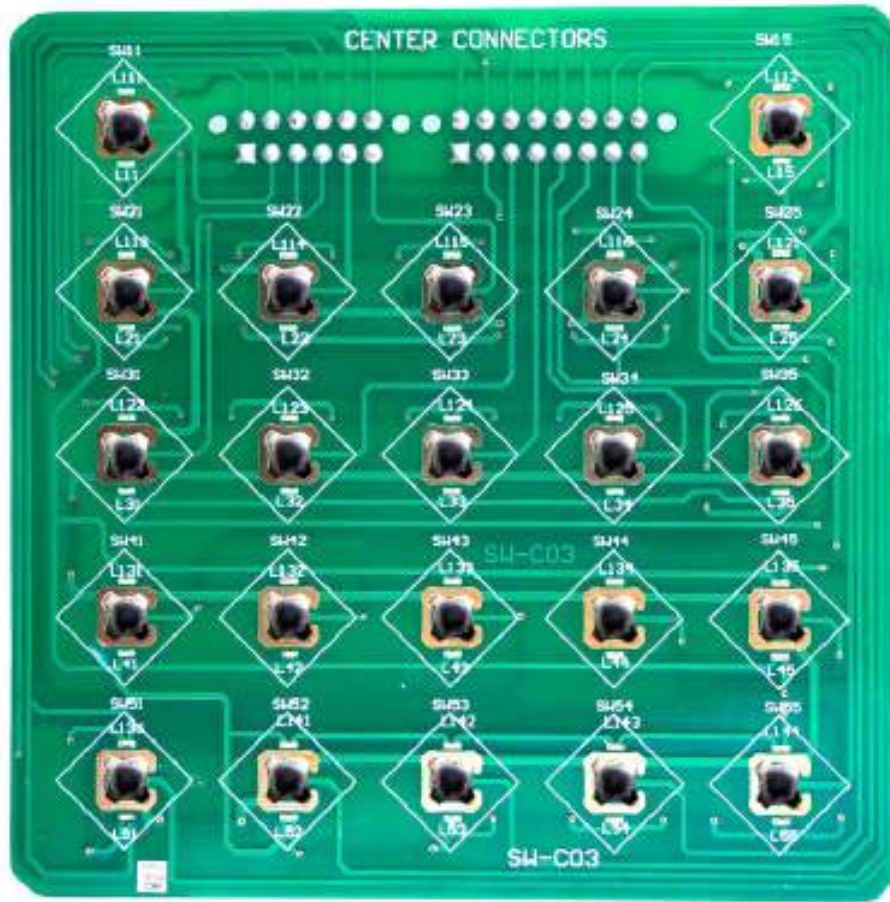

Our Products and Services

- Industrial Automation
 - CAN based IO Modules
 - DC Motor Controls
 - AC Motor Controls
 - Touch Display
 - Engine Cluster
 - Data Acquisition and Logging
 - IOT based Products with Web based and Android based Applications
- CNC Machine Products
 - CNC Machine Operating Panel
 - CNC Machine Lamp
 - Relay Modules
 - MPG - Manual Pulse Generator
 - Tower Lamp
 - Cable Harness
- We offer customized Microcontroller based Solutions for Industries
 - We are using Industrial Microcontroller - Renesas.
